

## Table of Contents

ABBREVIATIONS AND NOTATION . . . . .	IV
CHAPTER 1. INNOVATIVE PRODUCTION ACTIVITY. . . . .	1
1.1. The essence of innovative activity . . . . .	1
1.2. Ability to innovate . . . . .	5
1.3. The life cycle of innovation . . . . .	8
CHAPTER 2. CREATION OF THE PRODUCT. . . . .	13
2.1. Development stages . . . . .	15
2.2. Design of technical systems. . . . .	22
2.2.1. Functional design . . . . .	23
2.2.2. Technical design . . . . .	31
2.3. Dimensional analysis of technical systems. . . . .	33
2.3.1. The essence of dimensional analysis. . . . .	33
2.3.2. Formation of dimensional connections of the technical system . . . . .	35
2.3.3. Functional structure of dimensional analysis . . . . .	43
CHAPTER 3. SYSTEMATICITY OF PRODUCTION TECHNOLOGIES. . . . .	48
3.1. Technological preparation of production . . . . .	48
3.2. System principles of technological processes development . . . . .	51
3.3. Methods of technological processes development . . . . .	60
3.4. Analysis of the object of production . . . . .	73
3.5. Assessment of the level of a technological process . . . . .	75
CHAPTER 4. USE OF NEW TECHNOLOGICAL KNOWLEDGE AND PROCESSES. . . . .	79
4.1. Improvement of traditional technologies . . . . .	81
4.2. The latest work processes and technologies . . . . .	84
4.3. Technological management . . . . .	91
CONCLUSIONS. . . . .	93
REFERENCES . . . . .	96
