CLINICAL MEDICINE: EXPERIENCE AND INNOVATIONS

Experience of using ozone therapy in the complex rehabilitation program of community acquired polysegmental pneumonia associated with the SARS-Cov-2 virus

Baranova I. V., Iliuk I. A., Postovitenko K. P.6

The relationship between the cytokine profile and the features of the course of chronic hepatitis C comorbid with chronic pancreatitis

Derbak M. A., Buchok O. V.10

Mobility of the distal parts of the upper extremity as an indicator of the effectiveness of physical therapy and occupational therapy for injured people with the consequences of a gunshot polystructural fracture of the bones of the forearm

Zaslavskiy P. S.13

Accelerated rigor mortis in central hypertermia: a case report

Krishtafor D. A., Kravets O. V., Yekhalov V. V.17

Verification of cardiovascular comorbidity and arthropathies in patients with hemophilia

Lanovenko I. I., Averyanov E. V., Semenyaka V. I.21

The role of nutritional factors in the management of the efficacy and safety of iron-containing medicines use

Lopatynska O. I., Horko I. I.26

Damage of the cardiovascular system and signs of the formation of lipid spectrum disorders in children with juvenile idiopathic arthritis

Nikonova V. V., Bogmat L. F.31

The presence of geriatric syndromes in the elderly as a criterion for a specific approach in the rehabilitation correction of the consequences of the COVID-19

Rakaieva A. Ye.35

Experience in the use of armadine in the complex treatment of the gastrointestinal tract functional disorders

Svitlytska O. A., Kiknadze T. I., Horbatkova N. H.38

Post-ERCP pancreatitis: incidence, severity and mortality

Formanchuk T. V.42

THEORETICAL MEDICINE: BASIC DEVELOPMENT TRENDS

- Expression of CD68 in the rat's liver in the norm
and after 2 weeks cannabidiol oil applications
Shevchuk M. M., Volos L. I...... 45

PHARMACEUTICAL SCIENCES

- Mental health of citizens of Ukraine: expanding the roles
of good pharmaceutical practice
Bilousova N. A., Chuiko O. V...... 49

MEDICAL AND BIOLOGICAL SCIENCES: INNOVATIONS OF THE FUTURE

- Analgesic activity of salicyloylhydrazone-4-hydroxy-
3-methoxybenzaldehyde in the ointment
Aleksandrova O. I. 52
- Wilson-Konvalov disease
Denysiuk K. M., Pohorila I. O...... 54
- Pharmacy features during the war in Ukraine: digitization, rapidly changing
market, adaptation to population psychology in these difficult times
Melnyk H. M...... 57
- Specificity of parasites in relation to hosts
Shevchuk T. I...... 61

PARTICULARITIES OF TRAINING MEDICINE AND PHARMACY SPECIALISTS

- Analysis of the shortest light practices in the professional training
of pharmacists in mental health nutrition
Bilousova N. A. 65
- Optimization of the educational process at the histology department
under martial law
Hnenna V. O., Korol A. P., Chernykh M. O...... 68
- The meaning of the clinical department in the formation
of clinical thinking of the future dentist
Gorb-Gavrylchenko I. V...... 70
- The impact of distance learning on the level of training
of higher education applicants
Kuznetsova M. O., Bibichenko V. O., Kuznetsova I. K. 73

Implementation of innovative technologies in the teaching of propaedeutics
of pediatrics under martial law in Ukraine

Frolova T. V., Tereshchenkova I. I., Siniaieva I. R.76
