

CONTENTS

SECTION 1. CLINICAL MEDICINE: EXPERIENCE AND INNOVATIONS

Macrodonia. What to pay attention to

Aleksyeyenko N. S., Radoha R. V., Vakhovskiy V. V...... 6

The relevance of the problem of infections
of the amniotic cavity and fetal membranes

Hovsieiev D. O., Martynova L. I., Yaroshchuk O. B. 9

Retrospective analysis of the treatment of children
with Duchenne-Erb's obstetric paralysis. Methodology of diagnostic
and treatment approaches

Hrytsenko A. M., Khmyzov S. O., Kykosh G. V...... 12

Course of the disease and results of surgical treatment
of patients with peritonitis

Ivanchoy P. V., Davydiuk V. B...... 16

The resilience and elasticity of the arterial wall in persons
with suboptimal ratio of adipose and muscle tissue in the body

Krichfalushii O. P., Savka Yu. M., Slyvka Ya. I...... 19

Heart remodeling and state of diastolic function of the left ventricle
in adolescents with myocardial pathology

Nikonova V. V., Holovko T. O...... 23

Analysis of tumor-associated micrornas
as potential biomarkers in prostate cancer

Palii M. I...... 27

The influence of military aggression factors
on the microbiota of the genital tract of women with adenomyosis
and uterine leiomyoma

Ponomarova I. H., Lisyana T. O., Timofeeva A. Yu...... 31

Influence of orofacial dysfunction as a consequence
of the mandibula fracture on the quality of life and the possibility
of its correction by physical therapy

Saienko O. V. 35

Changes in the parameters of the functional ability of the upper extremity after a of the distal metapiphysis radius fracture in elderly women with manifestations of dementia under the influence of a physical therapy program Sarapuk R. I.	39
Treatment of secretory otitis media. Influence on indicators of cellular immunity of the tympan cavity Tagunova I. K., Andreev A. V., Gushcha S. H.	43
SECTION 2. THEORETICAL MEDICINE: BASIC DEVELOPMENT TRENDS	
Issues of organizational and methodological provision of early rehabilitation of military servicemen Gushcha S. H., Balashova I. V., Pryvalova N. V.	47
The influence of mobile phones on the functioning of the human nervous system Kuznetsova M. O., Kovalenko A. O., Busko V. V.	51
Morphofunctional characteristics of pancreatic microvasculature in response to central deprivation of testosterone synthesis (experiment) Mykhailenko V. V., Shepitko V. I., Boruta N. V.	54
SECTION 3. PHARMACEUTICAL SCIENCE: THE PRESENT AND THE FUTURE	
Study of acute toxicity on <i>Danio rerio</i> hydrobionts of new s-derivatives (1,2,4-triazol-3(2H)-il)methylthiopyrimidines Karpenko Yu. V.	58
The developing of medicine for prolonging the full-fledged activity of reproductive system Kustova S. P., Boiko M. O., Matvieieva T. V.	61
Neurodynamic properties and state of the autonomic nervous system in wartime distress Yerokhov R. O., Ilyin V. M.	65

SECTION 5. PREVENTIVE MEDICINE:**THE CURRENT STATE AND PROSPECTS**

Effectiveness of the vaccination strategy against COVID-19
in Ukraine during its pandemic

Korolenko V. V., Mohort H. A. 69

Principles of providing pre-hospital medical aid
to wounded prisoners of war

Kharchenko S. S., Lutsak O. O., Kalashchenko S. I. 71

SECTION 6. VETERINARY MEDICINE

Control of the epizootic situation regarding viral diseases of poultry
in the Donetsk region of Ukraine

Lobanov H. H. 75

The relevance of monitoring poultry coronavirus infection in Ukraine

Parkhomenko L. I., Zhukovska A. V. 80

**SECTION 7. PARTICULARITIES OF TRAINING MEDICINE
AND PHARMACY SPECIALISTS**

Use of innovative teaching methods (mind map) in the training
of the medical professionals

Hnenna V. O., Hovorushchenko O. O., Panchuk H. V. 85

Modern approaches to the training of dentists in the conditions
of the information society

Gorb-Gavrylchenko I. V. 89

Smart technology: is a step now a student to a smart doctor

Kaminskyi R. F., Dzevulska I. V., Tymoshenko I. O. 92

Modern interactive platforms as a tool for distance learning
in higher medical education

Cherepok O. O. 94
