Olena Dzhedzhula

CHAPTER 1 "ORGANIZATION OF INDEPENDENT GRAPHIC TRAINING OF STUDENTS IN CRISIS CONDITIONS"	1
1.1. Social Prerequisites for the Development of Independent Graphic Training of Students in Crisis Conditions	4
1.2. Theoretical Principles of the Formation of the Student's Self-education Activity in Crisis Conditions.	16
1.3. Pedagogical Conditions for Forming the Readiness of Students for Self-education Activities in Crisis Conditions.	21

Viktor Dubchak

CHAPTER 2 "DEVELOPMENT OF MATHEMATICAL MODELS FOR DESIGNING EDUCATIONAL RESOURCES IN HIGHER SCHOOL".	50
2.1. Determination of the Main Mechanical Characteristics of Classic Geometric Containers with Homogeneous Fillers	58
2.2. Establishing the Force of Pressure on Underwater Hydraulic Structures in Design Practice and Agricultural Engineering Training of Students of Higher Educational Institutions.	67
2.3. Establishing Volumetric Characteristics of Standard Three-Dimensional Geometric Figures by the Method of Using Curvilinear Coordinates.	79

Olena Diachynska

CHAPTER 3 "CURRENT ISSUES OF THE ORGANIZATION OF PHYSICS TEACHING IN THE CRISIS CONDITIONS".	88
3.1. Methods of Organizing and Conducting Practical Classes in Physics	90
3.2. Methods of Organizing and Conducting Laboratory Classes in Physics.	115
3.3. Organization of Students' Independent Activities.	122
3.4. Organization and Control of the Students' Knowledge.	126

Lyudmila Novitska

CHAPTER 4 "ONLINE EDUCATION IN CRISIS CONDITIONS: METHODOLOGICAL ASPECTS".	131
4.1. Challenges of Online Education in Ukraine	134
4.2. Implementation of Innovative Learning Technologies in Higher Educational Institutions of Ukraine.	141
4.3. Online Education as a Factor for the Formation of Students' Competitive Advantages.	149
4.4. Distance Education: the Case of Vinynats National Agricultural University.	155

4.5. Teaching Mathematics of Future Bachelors of Computer Sciences in the Agricultural University.	161
4.6. Problems and Prospects of the Development of Online Education During the Training of Bachelors in Computer Sciences in Crisis Conditions.	172
4.7. Choice of Learning Technologies for the Development of Soft Skills in Students During Martial Status.	180
4.8. Features of the Teaching of Higher Mathematics in an Agricultural University under Modern Conditions.	186
4.9. Independent Work in the Conditions of Distance Learning	193
4.10. Google Digital Tools for Organizing the Educational Process of an Agricultural University in Crisis Situations.	199
