

CONTENTS

SECTION 1. FLORA AND VEGETATION

Phytocoenotic features of the rare component of herbaceous plants of the dendrological arboretum “Olexandria” of the National Academy of Sciences of Ukraine

Kalashnikova L. V., Boiko N. S., Doroshenko Ju. V. 5

SECTION 2. EXPERIMENTAL BOTANY

Effect of water stress on tobacco variants obtained under *in vitro* conditions

Bronnikova L. I., Zaitseva I. O. 9

Detection of total RNase activity in *Nicotiana benthamiana* plants transformed with the *ZRNaseII* gene

Petrokhov A. O., Ovcharenko O. O. 14

SECTION 3. ECOLOGY

Protective effect of hydrated fullerene C₆₀: what the cardboard packaging suggested

Falko O. V., Chyzhevskiy V. V., Yevlash V. V. 16

Suggestions for the Balanced Development of Radioactively Contaminated Lands in Ukraine in Post-War Times

Shvydenko I. K., Raichuk L. A. 20

SECTION 4. MEDICAL AND BIOLOGICAL RESEARCH

Effect of rhythmic extreme cryotherapy (–120°C) on cognitive functions of spontaneously hypertensive rats

Babiichuk L. V., Kandybko I. V., Babiichuk V. G. 23

The influence of cord blood biological preparation on the rats with autoimmune genesis hypothyroidism thyroid gland functional activity and the immune system

Malova N. G., Komarova I. V., Syrotenko L. A. 27

SECTION 5. PHYSICAL AND GEOGRAPHICAL RESEARCH

Territorial distribution of mass deposits of wet snow on the territory of Ukraine over the period 1991–2020

Pyasetska S. I. 31

Tripartite ecotone: a new dimension in the study of transition zones between ecosystems

Serzhantova Yu. Yu. 35

SECTION 6. GEOLOGY	37
Shale oil as a new chapter in the history of Ukraine's extractive industry	
Sulima D. R.	37
From living organisms to fossils. The importance of fossils to society	
Tuzyak Ya. M.	39
SECTION 7. FEATURES OF TRAINING SPECIALISTS IN NATURAL SCIENCES	
Volunteering as a way of raising environmental awareness	
Borachuk O. A.	43
Medical biology as a natural science component in the training of rehabilitation specialists	
Hurniak O. M., Kravchuk M. G., Romanenko O. V.	47
