

## CONTENTS

### SECTION 1. CLINICAL MEDICINE: EXPERIENCE AND INNOVATIONS

Ultrasound diagnosis of pleural complications of acute destructive pneumonia in children <b>Halahan A. A.</b> .....	6
Study of lysozyme activity in the blood serum of rats with simulation of teething disorders <b>Horokhovskiy V. V.</b> .....	10
The markers of autoimmune inflammation in patients with Long COVID <b>Grishyna O. I., Menkus O. V.</b> .....	12
The role of inflammatory cytokines in predicting the course of acute peritonitis <b>Ivanchoy P. V., Davydiuk V. B.</b> .....	15
Hyperhomocysteinemia is a new factor in cardiovascular catastrophes (according to experimental research date) <b>Kaminskiy R. F., Tymoshenko I. O., Dzevulska I. V.</b> .....	19
Artificial intelligence in the diagnosis and treatment of acute intestinal obstruction <b>Kolesnikov Ye. B., Znaievskiy M. I.</b> .....	21
Features of the treatment and clinical course of mycoplasma infection <b>Koliada N. A., Ostapenko A. O., Skorobogatyi V. V.</b> .....	25
Experience of glossalgia treatment by an otolaryngologist <b>Lamza N. V., Lyshenko D. V., Morgacheva H. K.</b> .....	29
Client-oriented models for medicinal Angiotherapy and Angiocorrection in leveling of arteriovenous balance and hydro-hemodynamic conflict at cardiovascular disorders in various regional vascular reservoirs <b>Lushchyk U. B., Legka I. I., Novytsky V. V. (jn.)</b> .....	32
Comparative characteristics of the structure of chest trauma in wartime and peacetime conditions <b>Minukhin D. V., Yevsiukova Ya. V., Minukhin B. D.</b> .....	36

X-ray monitoring of subantral bone regeneration in patients undergoing plastic closure of Schneiderian membrane perforation during open sinus lifting <b>Mokryk O. Ya., Kasiyan D. V., Putko Z. P.</b> .....	<b>40</b>
Treatment of Schneiderian membrane perforation during sinus lift surgery using fibrin-based biomaterials (review) <b>Mokryk O. Ya., Kasiyan D. V.</b> .....	<b>45</b>
Correlations of blood C-reactive protein level with other clinical indicators in patients with chronic obstructive pulmonary disease <b>Pylypiv L. I.</b> .....	<b>48</b>
Components of pain during labor <b>Pylypchuk S. I., Pylypchuk I. S.</b> .....	<b>51</b>
The use of probiotics of the genus Bacillus in the process of complex rehabilitation in patients with refractory periodontitis <b>Symonenko R. V., Melnychuk T. A., Etnis L. O.</b> .....	<b>54</b>
Impact of traumatic events on the mental health of military personnel with PTSD and mental and behavioral disorders <b>Fitkalo O. S.</b> .....	<b>58</b>
Choosing the optimal treatment strategy for cervical insufficiency considering the inflammatory status of the birth canal <b>Cherneha V. O., Bila V. V.</b> .....	<b>62</b>
<b>SECTION 2. THEORETICAL MEDICINE:</b>	
<b>BASIC DEVELOPMENT TRENDS</b>	
Mathematical model for calculating therapeutic damage to the tumor after neoadjuvant therapy for breast cancer with or without metformin modification <b>Avierin D. I., Zavizion V. F.</b> .....	<b>65</b>
New combined dental gel for the treatment of the oral cavity <b>Deviatkina N. M., Komisarenko M. A., Kovalev S. V.</b> .....	<b>69</b>
Hemodynamic models of pathological and sanogenic reorganization of the body in systemic scleroderma due to the personalized angiocorrection of capillary hematomas and giant capillaries <b>Novytskyy V. V. (jn.), Lushchyk U. B., Sazchenko S. O.</b> .....	<b>75</b>
Study of the peculiarities of the evolution of nursing on the territory of Ukraine through the prism of historical and geographical development <b>Petlevanna O. V.</b> .....	<b>79</b>

**SECTION 3. PHARMACEUTICAL SCIENCES**

Individualized approaches to the needs of patients in the information space:  
transformation of the provision of pharmaceutical care

**Bilousova N. A.**..... 83

Production of medicines using 3D printing as a new format  
of pharmaceutical development

**Butkevych T. A., Polova Zh. M.** ..... 86

Peculiarities of HPLC analysis of the content of the sorbitol substance  
for the presence of accompanying impurities

**Welchinska O. V., Nizhenkovska I. V., Kharlampovych S. A.** ..... 89

**SECTION 4. MEDICAL AND BIOLOGICAL SCIENCES:  
INNOVATIONS OF THE FUTURE**

Colorectal carcinoma: study of its features and significance  
of oncomarkers

**Liuta N. O., Tkachuk V. R.**..... 93

Mathematical modelling of hemodynamic transformations  
in the microcirculatory channel in post-Covid occlusive  
microthromboangiopathy

**Novytskyy V. V. (jn.), Novytskyy V. V., Moamar D. N.**..... 96

**SECTION 5. PREVENTIVE MEDICINE:  
THE CURRENT STATE AND PROSPECTS**

Prevailing manifestations of stress and distress in combatants

**Aymedov C. V., Chemer Yu. P., Kasykova M. V.**..... 99

**SECTION 6. PARTICULARITIES OF TRAINING MEDICINE  
AND PHARMACY SPECIALISTS**

Pedagogical proficiency of teaching staff in higher educational institution

**Hnenna V. O., Hovorushchenko O. O.** ..... 103

Using digital platforms in the educational process  
of medical high schools

**Kovalenko N. I., Tkachenko M. V., Smorodskiy V. O.** ..... 107

The place of medical biology in the development  
of research competence in students of higher education

**Romanenko O. V., Hurniak O. M., Pohorila I. O.**..... 110

Training of specialists at the stage of postgraduate education

**Fesenko V. I.**..... 114
