

CONTENTS

SECTION 1. Health fitness and fitness culture in the system of physical education in institutions of higher education (Antipova Z. I.)	1
1. Technologies of formation of fitness culture among students of higher education institutions	4
2. Analysis of sources, systematization of existing means for the optimal solution of the tasks of physical education in institutions of the higher education institutions	5
3. The new fitness program is a means of popularizing fitness among students of higher education institutions	7
SECTION 2. Historical prerequisites and features of development winter sports in China (Balashov B. D.)	25
1. Formation and development of the Olympic movement in the People's Republic of China	26
2. Analysis of the results of athletes of the People's Republic of China at the Olympic Winter Games	45
SECTION 3. Comprehensive assessment of coordination abilities of 5– and 6-year-old acrobats according to age and gender differentiation (Bermudes D. V.)	56
1. Essence, types, means, methods of development and evaluation of coordination abilities	57
2. Analysis of coordination abilities of 5– and 6-year-old acrobats according to age and gender differentiation	68
SECTION 4. Regarding the problem of pain in teenagers during the physical culture lesson (Hulka O. V., Grabyk N. M., Hrubar I. Ya.)	88
1. The concept of “pain”, its types and mechanisms of development	90
2. Pedagogical component of the problem of pain in teenagers during physical exercises	97
SECTION 5. Analysis of the conduct of physical culture in preschool institutions of Zaporizhyya in distance format (Zakharova O. M., Cherednychenko I.A., Hancheva V. V.)	110
1. Partial program for inclusive physical education of children 4-6 years old «Movable Cerebellum: Movable Cerebellum»	111
2. Project «Sensomotor antistress for Ukrainian children, near and far»	114
3. Pedagogical experiment “Family VICTORI”	116

SECTION 6. Development of fine motor skills in children with speech disorders (Zelinska-Liubchenko K. O.)	123
1. Theoretical Foundations of Studying the Influence of Fine Motor Skills on Children’s Speech Development	124
2. Work on the Development of Fine Motor Skills and Its Impact on the Speech of Children with Speech Disorders	133
SECTION 7. Physical culture and sports as a means of adaptation and socialization for children with special needs in general educational institutions (Kyrychenko O. V., Atamanyk S. I., Kubatko A. I.)	153
1. The concept of inclusive physical education and its features.....	154
2. Principles of the developed program for the development of a child with special educational problems by means of physical culture	157
SECTION 8. Injury prevention in French Savat boxing (Konovalchuk A. M., Mordyk M. Yu., Borovska N. I.).....	165
1. General characteristics of injuries in French Savat boxing	166
2. Causes of sports injuries.....	171
SECTION 9. Improvement of the training process in physical training swimmers 16-17 years old in the annual macrocycle (Maksymenko L. M., Myrna A. I., Myrnyi D. P.).....	177
1. Scientific substantiation of the use of special means to improve the physical fitness of 16-17 year old swimmers.....	178
2. Practical aspect of pedagogical research.....	182
3. Changes in indicators of physical fitness of swimmers aged 16-17 during the study	185
SECTION 10. Scientific approaches to the technology of training the sports reserve in football: problems and prospects (Nikolaienko V. V., Vorobiov M. I., Chopilko T. H.).....	201
1. Psychophysiological support of the athlete’s activity	202
2. Approaches to the technology of training young football players.....	206
SECTION 11. Research on the impact of gymnastics classes on improving the process of physical development and physical fitness of 16–17-year-old boys (Ponomarov V. O., Tsarenko K. V.)	219
1. Emergence of prerequisites of the problem and formulation of the problem	220
2. Analysis of existing methods of problem solving and task formulation for optimal development of physical development and physical fitness	220

SECTION 12. Ukrainian folk games as a means of improving the health of the population in the context of the seven-factor system of health and human development (Prytula O. L., Konokh A. P.)230

1. Emergence of the prerequisites of the problem and formulation of the problem..... 231
2. The seven-factor system of human health and development, as a comprehensive approach to the process of regulating the level of human health 235
3. The use of Ukrainian folk games as a means of improvement in the context of the seven-factor system of health and human development for the improvement of the population..... 239

SECTION 13. Developing effective physical activity programs: using Kenyon’s attitude toward physical activity inventory to understand intrinsic motivations in obese adults (Chukhlantseva N. V.) 249

1. Attitudes towards physical activity: theoretical framework, research design..... 251
2. Results of the study and discussion..... 256
