

CONTENTS

SECTION 1. The use of interactive methods of training cadets in the process of performing laboratory work in physics (Avramchuk O. Ye.).....	1
1. Emergence of the prerequisites of the problem and formulation of the problem.....	2
2. Review of laboratory work of the experimental cycle.....	5
3. Presentation of the results of the laboratory work of the experimental cycle in the conditions of dispersion.....	10
SECTION 2. International experience of professional training of future specialists in physical rehabilitation for the formation of a health-preserving educational environment (Bielkova T. O., Kushniruk S. A.)	16
1. Professional training of future specialists in physical rehabilitation in institutions of higher education in European countries of the world.....	17
2. Professional training of future specialists in physical rehabilitation in institutions of higher education in Asian countries of the world	21
3. Professional training of future specialists in physical rehabilitation in institutions of higher education in the USA and Canada	29
SECTION 3. The use of digital educational resources in the training of future teachers (Dushchenko O.)	38
1. Analysis of the main concepts: “digital resources”, “digital educational resources”, “digital educational space”, “digital competence”	39
2. Examples of digital educational resources for use by future teachers	43
SECTION 4. A competence approach in the training of future biology teachers in institutions of higher education (Zinchuk N. A.)	56
1. The essence and components of professional competence of future biology teachers	57
2. Methods and techniques for the formation of positive motivation in the training of future biology teachers in the process of teaching the discipline “Introduction to the specialty”	61
SECTION 5. Professional training of future primary school teachers in the context of transformational changes in education (Kirdan O. L.)..	68
1. Organizational principles of professional training of future primary school teachers.....	69
2. Professional training of future primary school teachers in the modern scientific discourse.....	72

SECTION 6. The essence of the professional competence of a educator of the deaf in the system of general secondary education (Mostovy L. P.)	97
1. The role and importance of the teacher of the deaf in the system of general secondary education.....	98
2. Content of theoretical and practical training of a teacher of the deaf to work with children with hearing impairments.....	107
3. Professional competence and personality of the teacher of the deaf.....	111
SECTION 7. Online learning under the conditions of global challenges (Nozdrova O. P., Nozdrova K. V.)	121
1. Organization of distance learning in higher education institutions	122
2. Using an integrated approach to learning in online classes in higher education institutions	128
SECTION 8. Young professional orientation to IT specialties: local implementation experience (Ostroha M. M.).....	137
1. Description of key research definitions.....	139
2. The market of IT specialties and its analysis	145
3. Professional diagnostics	151
SECTION 9. Practice as a component of the formation of a modern teacher of a higher education institution for the specialty “Pharmacy, industrial pharmacy” (Parashchyn Z. D., Krychkovska A. M., Lobur I. P.).....	167
1. Practice as a basis for the formation of competencies of a future specialist in the specialty “Pharmacy, industrial pharmacy”.....	168
2. Pedagogical practice at the third (postgraduate) level of education in the specialty “Pharmacy, industrial pharmacy”.....	185
SECTION 10. Updating the content and methods of teaching students Python programming (Petrenko S. I., Dehtiarova N. V.)	197
1. Analysis of the content of programming instruction based on textbooks and curricula.....	198
2. Studying widgets as an example of a differentiated approach in teaching programming	215
SECTION 11. Prerequisites for the transformation of educational discourse in digital space: the axiological aspect (Pustovit N.).....	223
1. The concept of the axiosphere in the online environment	224
2. Narrative identity as a tool for building an educational environment.....	232
3. Challenges in educational communication and methods for addressing them in the digital era.....	238

SECTION 12. The problem of forming information hygiene skills in computer science lessons (Semenikhina O. V.)	248
1. Information threats as a consequence of the development of IT	249
2. Information hygiene in the results of scientific and pedagogical research.....	253
3. Analysis of computer science curricula forming information hygiene skills	261
4. Determination of the awareness of students about the observance of information hygiene.....	266
SECTION 13. Forming the competence of students in the context of open education and the great transformation: “Education 4.0: Ukrainian Dawn” (Tolochko S. V., Mironets L. P., Khomych V. I.).....	275
1. The concept of “Education 4.0” and its key characteristics	276
2. Challenges and opportunities of globalization for Ukrainian education	279
3. Mechanisms for the formation of competencies of students in the era of “Education 4.0”	283
4. “Education 4.0” in Ukraine: the way to transformation	285
SECTION 14. Training of future teachers of computer science: modeling the process based on the use of electronic educational resources (Udovychenko O. M.)	296
1. Active implementation of modular learning technologies	300
2. Active use of open educational resources for the organization of independent work.....	305
3. Implementation of author's electronic textbooks	309
SECTION 15. Collaborative online international learning: a new vector in the education of physical education practitioners (Chukhlantseva N. V., Cherednychenko I. A., Napalkova T. V.)	327
1. Theoretical basis and brief description of terms	329
2. The intercultural aspect in the training of physical education specialists: from theory to practice in COIL projects.....	334
SECTION 16. Information and communication competence of physics teachers: structural and logical analysis (Yurchenko A. O.)	346
