

## CONTENTS

### PROSPECTS FOR METALLURGICAL PRODUCTION TECHNOLOGIES

Modern equipment for complex metallurgical processing of aluminum-containing scrap and waste <b>Aleksyeyenko V.V., Sezonenko O.B.</b> .....	15
Compaction behavior of alsini powders with different morphologies <b>Bevz V.P., Zrodowski Lukasz, Tarasyuk A.L., Zavidoveev A.V.</b> .....	19
Analysis of the content of impurities in copper bull obtained using different technologies <b>Bevz O.O.</b> .....	21
Improving the efficiency of burden distribution in a blast furnace <b>Boiko M.M., Kopytko O.H., Omelchenko M.M.</b> .....	23
Justification of the possibility of agglomerate formation of specified composition and properties <b>Bochka V.V., Yaholnyk M.V.</b> .....	25
«Green» metallurgy: problems, prospects and forecasts <b>Vodennikova O.S., Pishchenko K.A.</b> .....	27
Sources of nitrogen consumption in metal <b>Volzhyn D.O., Kustikov V.V., Stoianov O.M, Malii Kh.V.</b> .....	31
Dissolution of nitrogen in steel <b>Volokh S.V., Stoianov O.M</b> .....	33
Improvement of technological rolling modes in edge rolls <b>Gribkov E.P., Lipatov K.V., Kalenkov O.F.</b> .....	36
Automated design of the composition of the rolling stand equipment <b>Gribkov E.P., Kryukov R.Ye.</b> .....	39
Experimental study of the influence of the surface conical defects of the rod on the quality of the wire manufactured <b>Dolzhanskiy A.M., Petlovaniy E.A., Bondarenko O.A., Brahynskiy O.B.</b> .....	41

---

Removal of non-metallic inclusions from aluminum melts using foam ceramic filters of various thicknesses <b>Yefimova V.G.</b> .....	44
Adsorption of non-metals included in the slag phase in the tundish <b>Yefimova V.G.</b> .....	47
Study of the billet stress-strain state during continuous hot-rolling pipes at three-roll cages <b>Konovodov D.V., Kuzmina O.M., Bobukh O.S., Ziatina V.I., Kvak B.I.</b> .....	51
Types of destruction of basic periclase-carbon refractories <b>Lapshyn Ye.V., Prytuliak Ye.V., Stoianov O.M., Malii Kh.V.</b> .....	53
Development of charge formation technology for smelting refractory mulite-silica material <b>Mazur V.V.</b> .....	56
Investigation of Manganese and Silicon Oxidation Losses in the Processing of balanced steel at the “Ladle-Furnace” <b>Mameshyn V.S., Vepryk O.O.</b> .....	57
Influence of changes in the structure of the metal charge on lime consumption <b>Mameshyn V.S., Parhomenko O.A.</b> .....	59
Manufacturing technology and mechanical properties of deformable alloys of the Al-Mg system <b>Muzyka O.O., Zacharova N.P., Poperenko T.V., Iefimov M.O.</b> .....	62
Use of graphite plast bushes as details of piston compression units <b>Naberezhna O.O., Golovko S.I., Dusha D.S.</b> .....	64
Ways of development of the metallurgical complex of Ukraine in modern conditions <b>Navolniev I.Yu.</b> .....	67
Application of variable designs of top-blowing lances during the converter life <b>Niziaiev K.H., Husak M.H., Synehin Ye.V.</b> .....	71
Study of the influence of metal “overblowing” in BOF on its technological performance indicators <b>Niziaiev K.H., Zelenyi Yu.A., Synehin Ye.V.</b> .....	72

Estimation of the bof heat losses through its lining <b>Niziaiev K.H., Synehin Ye.V., Trybushnoi V.O., Husak M.H.</b> .....	74
Technological aspects of crankshaft forging <b>Paliienko V.O., Chukhlib V.L.</b> .....	76
Experience in the effective use of natural gas in heating processes of metallurgical lucks <b>Pylypenko R.A., Tsvetkov Ye.S., Melnikov R.V.</b> .....	78
Evaluation of the effectiveness of using oxygen lances in hearth units <b>Prytuliak Ye.V.</b> .....	82
Analysis of the influence of the temperature and processing time of aluminum melts in the furnace on the quality of castings <b>Saithareiev L.N., Vodennikova O.S., Skidin I.E.</b> .....	83
Features of the use of coal of different grades in a mixture of pulverized fuel under the conditions of current cast iron production <b>Semenov Yu.S., Horupakha V.V., Pinchuk D.V., Bolotov M.B.</b> .....	86
Review of metal flow control methods during continuous casting of steel <b>Synehin Y.V., Kukhno S.A., Zhuravlova I.V.</b> .....	90
Improvement of the technology of out-of-furnace processing of pipe steel <b>Synehin Ye.V., Niziaiev K.H., Torin A.I., Zelenyi Y.A.</b> .....	92
Promising directions for the implementation of non-destructive methods for determining the mechanical properties of cast iron castings <b>Sirenko K.A., Mazur V.L., Frolov O.A</b> .....	94
Effect of slag composition on degree of steel desulphurization during ladle furnace refining <b>Stepanenko D.O., Togobitska D.M., Bielkova A.I.</b> .....	95
Reengineering of metallurgical production: transition to “green” steel <b>Tymoshenko D.O., Kukhar V.V.</b> .....	98
Effective system for defrosting vanishes in frozen cars <b>Trotsenko L.N., Pikashov V.S., Vinogradova T.V.</b> .....	101
Technological analysis of deep oxidation of aluminum steel <b>Fedorov R.F., Stoianov O.M.</b> .....	104
Study of forging in notched cylinder forgings with a through hole <b>Chukhlib V.L., Duvansky O.M.</b> .....	108

---

Study of forging large forgings for the manufacture of hooks with high load capacity <b>Chukhlib V.L., Kolisnyk K.D.</b> .....	110
Determination of the main technical characteristics of the rolling stand of a ball rolling mill <b>Shtoda M.M., Bozhenko A.V.</b> .....	113
Analysis of use of metallurgical waste during agglomeration <b>Yaholnyk M.V., Umanskyi M.A., Barakhov S.I.</b> .....	116
<b>INNOVATIONS IN MATERIALS SCIENCE, WELDING AND MECHANICAL SYSTEMS ENGINEERING</b>	
Numerical simulation in radial-forward extrusion process to analyze forming characteristics <b>Abhari P.B., Solianov D.O., Bochkovoi D.O.</b> .....	120
Improving the processes of precision volumetric stamping of hollow parts <b>Aliiev I.S., Levchenko V.M., Chuchin O.V., Malii O.G.</b> .....	123
Determination of the dynamic coefficient of samples made of composite material based on polymer MM «Stahl 1018» <b>Arustamian A.S.</b> .....	127
Increasing the initial hardness of high-chromium deposited metal with metastable austenite <b>Boyko I.O., Pashynskyi V.V., Pashinska O.G.</b> .....	130
Energy-saving heat treatment of steel 45g with heating in the intercritical temperature interval (MKIT) <b>Burova D.V.</b> .....	133
Influence of self-tempering temperature on the structure of acceleratedly cooled medium-carbon steel <b>Vakulenko I.O., Plitchenko S.O., Hlebnikov A.V.</b> .....	135
Determination of the critical penetration velocity of aluminum alloy targets by indentation <b>Goncharuk V.A., Iefimov M.O., Goncharova I.V., Tsvilitsin V.Yu.</b> .....	138
Rewiew of 3D printing technologies in mechanical engineering <b>Gorobets D.S., Plitchenko S.O.</b> .....	141

Reasons for low technological plasticity about the problems of low technological plasticity of steel 04h14r3r1f used in the production of pipes for nuclear energy <b>Gubenko S.I., Bepalko V.M.</b> .....	144
About necessity of local laser strengthening of the tread of railway wheels <b>Gubenko S.I., Parusov E.V., Chuiko I.M., Parusov O.V.</b> .....	147
Application of diffusion coatings in engineering <b>Degula A.I., Sytnikov V.O., Hryb V.V.</b> .....	150
Innovative polymer materials for enhancing the efficiency of irrigation systems <b>Yeriomina Ye.A., Oliynik G.V., Shostak R.V.</b> .....	152
Study of the influence of clad alloy PKHN-15 on the tribological properties of polymer composite materials based on aromatic polyamide phenylone <b>Yeriomina Ye.A., Shermet D.B., Yarovy Ya.Ye.</b> .....	154
Technology and equipment for the production of cold-deformed reinforcing rebars in coils <b>Ivchenko A.O., Perchun G.I.</b> .....	156
Determination of the law of motion for an unsteady mode of a machine unit with a non-linear mechanical characteristic <b>Kaidash M.D.</b> .....	160
Finite element modeling of a multi-stage combined extrusion process for hollow products with a flange <b>Kosariyev V.S., Chuchin O.V.</b> .....	163
Increasing the operational durability of the friction tool for spinning of necks <b>Kulik T.O., Kulik O.M.</b> .....	166
The force mode of transverse extrusion processes <b>Levchenko V.M., Markov O.Ye., Abhari P.B., Titov A.V.</b> .....	168
Analysis of modern methods of restoration and strengthening of stamps using the fusion method <b>Makarenko N.O., Kushchii A.M., Biezghin O.A., Borysenko Yu.Yu.</b> ..	172
The main directions for improving the process of combined extrusion for stamping sleeves <b>Malii O.H.</b> .....	175

---

Roller bearings made of hybrid polymer composite based on polyamide <b>Naberezhna O.O., Mizina V.V.</b> .....	177
Investigation of the possibility of ductile iron plasticity increasing <b>Pashynskiy V.V., Pashinska O.G., Boyko I.O.</b> .....	179
Resource-saving technology for strengthening press equipment in conditions of self-propagating high-temperature synthesis when obtaining special-purpose parts <b>Sereda B.P., Udod A.M.</b> .....	182
Resource-saving technology for hardening stamps using functionally active charges <b>Sereda D.B.</b> .....	185
Influence of annealing parameters in furnaces on the surface finish of cold-rolled steel <b>Spichak O.Yu., Kukhar V.V., Shirokobokov V.V.</b> .....	186
Preparation of samples for the scanning microscope <b>Sukhomlyn V.I., Popil O.I., Hurin I.V., Korkh B.S.</b> .....	190
The influence of high-entropy alloys on the abrasive wear rate of ultra-high molecular weight polyethylene <b>Tomina A.-M.V., Voloshyna K.R., Pluzhnyk V.R.</b> .....	193
Influence of dispersed alloys on the tribological properties of ultra-high molecular weight polyethylene <b>Tomina A.-M.V., Cheshenko Ye.D., Dormed A.V.</b> .....	196
Application of kirigami inspired structures in deformation-thermal treatment of composite material sheets <b>Frolov Ya.V., Bobukh O.S., Boiarkin V.V., Konovodov D.V.</b> .....	199
On the importance of practicing skills close to the production process in vocational education institutions <b>Kholodnyi V.Yu., Pererva R.P., Udovychenko M.O., Netesanna A.R.</b> .....	202
Morphology of the carbide component by carburization of high-alloy steels <b>Chornoivanenko K.O.</b> .....	205

Determination of the mechanical properties of amorphous coatings of the Fe-Cr-B and Fe-Cr-Ni-Co-B systems by the indentation method  
**Chugunova S.I., Golubenko O.A., Kuprin V.V., Lukianov O.I., Melnik V.H., ..... 209**

Improving the homogeneity of metastable austenite when surfacing parts made of 110g13 steel  
**Shalay V.O., Petrenchik I.V., Boyko I.O..... 212**

## **CHALLENGES AND PROSPECTS FOR ENGINEERING EDUCATION TRANSFORMATION**

Advantages of case technology in teaching a foreign language to students of technical specialties  
**Burkovska O.Y..... 216**

Modern approaches to digital education in learning English by students majoring in Computer Science  
**Varekh N.V., Ragulina N.V..... 219**

Specificity of learning foreign language lexis by seekers of engineering education at classes of business-aimed and scientific Ukrainian  
**Dvoriankin V.O..... 222**

System of professional training in the modern production environment: strategies for rebooting  
**Dieiev V.V. .... 225**

Alumni of limited liability company «Technical university «Metinvest Polytechnik» as a form of preserving the sensitivity of engineering education to the best world practices of the real practical industrial environment of Ukraine  
**Kononyuk D.V..... 230**

Authentic materials and their role in teaching technical English  
**Kochergina S.S. .... 233**

Development of educational and professional potential in the context of hybrid forms of employment: challenges and opportunities for modern industry  
**Maltsev O.Yu..... 235**

Modernization of a pneumatic training stand for the preparation of engineers in the field of automation and mechatronics  
**Netesanniy A.P., Zhosan V.O., Vorona I.S., Hladyr M.M..... 239**

A multi-level system of engagement of students in scientific activities as a form of edtech technologies <b>Pashynska O.G., Grudkina N.S., Pashynskiy V.V., Boyko I.O. ....</b>	<b>242</b>
Combination traditional and innovative foreign language teaching methods <b>Ragulina N.V., Varekh N.V. ....</b>	<b>245</b>
Woman role in modern engineering education and her self-fulfillment in technical positions: psychological aspect <b>Rekova N.Yu., Chanhli K.M. ....</b>	<b>252</b>
Peculiarities of teaching phrasal verbs <b>Soloviova O.V. ....</b>	<b>258</b>
The importance of students' independent work when learning English at technical university <b>Khoroshailo O.S. ....</b>	<b>260</b>
 <b>PRIORITIES FOR IMPROVING THE OPERATIONAL EFFICIENCY OF MINING COMPANIES</b>	
Interactive general plan as a tool for improving the operational efficiency of a mining operation <b>Brui H.V., Kyrychenko I.H. ....</b>	<b>262</b>
Optimization of the receipt of scrap metal during military actions in Ukraine <b>Vodopyanov V.S., Tereshko Yu.V. ....</b>	<b>265</b>
Operational efficiency of trading enterprises: new challenges and solutions in digitalization conditions <b>Goncharov O.S., Tereshko Yu.V. ....</b>	<b>268</b>
Justification of the adaptive efficiency coefficient for the formation of complex mechanism schemes <b>Hryhoriev Yu.I., Hryhoriev I.Y., Lutsenko S.O., Kuttybayev A.E. ....</b>	<b>272</b>
Study of the rock-breaking roadheaders tools using efficiency in the conditions of PJSC “Pokrovske mining company” <b>Kamenets V.I., Chebotenko D.O. ....</b>	<b>275</b>
Justification of the technology of “dry” storage of waste enrichment of magnetite quartzites of Krivorizhia enrichment plants <b>Kryvorotko V.V. ....</b>	<b>278</b>

Modeling of surface subsidence isolines over the mine workings <b>Nazarenko V.O., Brui H.V., Novitcky G.A.</b> .....	<b>281</b>
Reductin of operational failures and damage to control systems of the coke gas supercharger oil system due to vacuum cleaning of turbine lubricant <b>Olieshkevych Ye.H., Bohomaz O.P.</b> .....	<b>285</b>
Mobile crushing and reloading complexes as a tool for enhancing the adaptability of open-pit mining technology <b>Pylypchuk D.I., Hryhoriev Yu.I., Hlopenko B.V., Neisalo S.H.</b> .....	<b>288</b>
Prospects for lignite use in Ukraine's energy sector <b>Piliuhyn V.I., Kamenets V.I.</b> .....	<b>290</b>
Controlling the direction of rocks destruction by soundless chemical demolition agents <b>Sakhno I.G., Sakhno S.V., Pogosyan A.V.</b> .....	<b>294</b>
Increasing the productivity of the iron ore dressing plant by optimizing the particle size distribution of blasted rock mass in the open pit of PJSC “INGZK” <b>Smirnov O.Ya., Streltsov V.O.</b> .....	<b>296</b>
Improving the operational efficiency of Midrex H2 and blast furnace processes through the optimization of pellet metallization <b>Tymoshenko D.O., Kukhar V.V.</b> .....	<b>299</b>
Features of optimizing costs in steel production in the conditions of changing business sustainability and military state <b>Fedorov S.O., Tereshko Yu.V.</b> .....	<b>303</b>
Modeling of whirl simulation bits of the drill string <b>Shevchuk L.V., Zaiets Yu.O.</b> .....	<b>307</b>

**SOFTWARE AND INFORMATION SUPPORT  
FOR COMPUTERIZED SYSTEMS OF BUSINESS PROCESS  
MANAGEMENT**

Analysis of approaches to defining software requirements quality <b>Gobov D.A., Shevchenko N.Yu.</b> .....	<b>311</b>
Securing web applications in computerized management systems: modern threats and effective protection methods <b>Hurkovska S.S.</b> .....	<b>315</b>

---

Project calendar in Microsoft Excel: a flexible, convenient, and quick planning method <b>Derzhhevetska M.A.</b> .....	<b>316</b>
The process of inventorying critical information at the enterprise <b>Ilchenko M.V., Sahaida P.I.</b> .....	<b>319</b>
Using ml.net to solve a classification task in c# <b>Kasianiuk O.S.</b> .....	<b>322</b>
On the principles of developing a computer program for calculating the strength of double-braced i-beams <b>Kostikov O.A., Kholodnyak Yu.S.</b> .....	<b>325</b>
Automatic system for monitoring the particle size distribution of raw pellets <b>Kuznitsov O.M.</b> .....	<b>328</b>
The method of automating the continuous improvement system in the services of limited liability company “Metinvest Business Services” <b>Ladygin O.V., Sahaida P.I.</b> .....	<b>330</b>
Using machine learning to predict the results of cybersports competitions <b>Mikhieienko D.Yu., Titenko D.A.</b> .....	<b>332</b>
Using graph databases to determine the nearest or longest travel routes to necessary stations <b>Mihnyov O.V.</b> .....	<b>334</b>
Key business analysis aspects to requirements elicitation for artificial intelligence systems within digital transformation <b>Moskalenko V.V.</b> .....	<b>335</b>
Using Orange3 to automate data mining processes in the mode of visual construction of data transformation stages <b>Nefedchenko O.O., Sahaida P.I.</b> .....	<b>338</b>
Development of the mathematical model of the tunnel furnace for optimizing the use of energy resources <b>Pipko O.V., Getman I.A.</b> .....	<b>341</b>
Use of rag systems to improve the accuracy and content of query results for large language models <b>Plutalov Ya.A., Sahaida P.I.</b> .....	<b>345</b>

Fundamental Principles for Developing the GeoDATA Zones System for Monitoring the Stability of Deep Quarry Slopes <b>Romanenko A.O.</b> .....	347
Technologies for the use of artificial intelligence agents to automate the execution of tasks for the search and generalisation of data from external sources <b>Sahaida P.I., Dobriak S.K.</b> .....	349
Using .net interactive to visualize data in interactive notebooks created with c# <b>Samoilenko D.O., Kasianiuk O.S.</b> .....	353
Features of creating a comprehensive enterprise management information system <b>Subotin O.V., Novikov D.S.</b> .....	356
Analysis of the current state of tourism business support information systems <b>Tkachuk A.V., Sahaida P.I.</b> .....	360
Research of the intelligent chatbot of the service support service <b>Shmatko O.V.</b> .....	362
