

CONTENTS

SECTION 1. INFORMATION SYSTEMS AND TECHNOLOGIES

Network infrastructure of housing complexes

Kyrychek H. H., Tiahunova M. Yu., Zhyvohliad V. A..... 5

Integrated Environment for Study of Discipline: Conceptual Model
of Learning Exercise

Otenko V. I., Synytsia K. M., Zaritska S. I. 10

Integrated approach to task dispatching in IT-projects

Tyshchenko D. V., Antypenko V. P..... 14

SECTION 2. MATERIALS SCIENCE

Research into the physical and mechanical properties of steels in order
to determine substitutes for 09G2S steel in the context of transition
to European standards

Bahrov O. M., Khozia P. O., Popova T. V..... 17

Study of the influence of various laser sources on non-metallic materials
used in UAV structural components

Bernatskyi A. V..... 22

SECTION 3. INDUSTRIAL ENGINEERING

On the issue of the dynamics of auxiliary conveyor transport

Chasov D. P., Shpalyarenko S. A., Shpalyarenko O. A..... 25

SECTION 4. SHIPBUILDING

Primary ways for improving the environmental performance
of Marine Diesel Engines

Nalyvaiko V. S., Avdiunin R. Yu., Poshyvai M. I. 28

Route optimization in navigation

Syvash S. B. 33

SECTION 5. METALLURGY

Experience in applying energy-efficient technologies
in flame melting furnaces for secondary processing of non-ferrous metals

Sezonenko O. B., Aleksyeyenko V. V..... 36

**SECTION 6. ELECTRIC POWER ENGINEERING,
ELECTRIC ENGINEERING AND ELECTROMECHANICS**

Systems for intelligent monitoring and predictive diagnostics
of cold rolling mills electric drives

Nazarova O. S., Rusiak O. H. 40

SECTION 7. POWER ENGINEERING

Implementation of Artificial Intelligence for the development of Internal
Combustion Engines

Poshyvai M. I., Avdiunin R. Yu. 44

SECTION 8. ELECTRONICS AND TELECOMMUNICATIONS

Possible use of radiation imaging in ischemic heart disease

Mospan D. V., Kokolii N. A., Koval D. K. 49

SECTION 9. FOOD TECHNOLOGIES

Ice cream technology using oat and flax milk composites

Demianova V. V., Radchenko A. E. 53

SECTION 10. ARCHITECTURE AND CONSTRUCTION

Methodology for Analyzing the Architectural Aesthetics of Churches
as a Tool for Studying Complex Architectural Systems

Oliinyk H. I. 56

SECTION 11. TRANSPORT

Differential models of some navigation problems

Sokolovska H. V. 60

Assessment of the dynamics of wear of bearing structures
of metropolitan cars as a result of corrosion processes

Sulym A. O., Pavlenko Yu. S. 64
