

CONTENTS

SECTION 1. CLINICAL MEDICINE:

EXPERIENCE AND INNOVATIONS

The role of vitamin D in dental mineralization and caries prevention

Vakhovskiy V. V. 7

Tongue hygiene as a priority factor in the control of oral halitosis

Gorb-Gavrylchenko I. V. 11

Dynamics of the results of determining asthenization according to the MFI-20 scale in military personnel with the consequences of traumatic brain injury and complicated bruxism under the influence of physical therapy

Kovalets R. I. 14

Modern approach to ICU sedation

Krishtafor D. A., Kravets O. V., Stanin D. M. 18

Features of the dynamics of functional parameters of functional tests for assessing the autonomic nervous system in military personnel with the consequences of traumatic brain injury using physical therapy

Makarchuk E. O. 21

Adolescent pregnancy – health risks and psychosocial outcomes

Martynova L. I., Prylutska A. B., Herevych N. V. 25

Cognitive anticipation in pediatric practice

Medrazhevska Ya. A., Malyk S. L., Fik L. O. 29

Use of the ANI Index as an Adjunct to Standard Monitoring in Ophthalmic Surgery

Mynka N. V., Tutunnyk A. G. 32

The feasibility and effectiveness of thoracoscopic access in the treatment of patients with thymic neoplasms

Minukhin D. V., Yevtushenko D. O., Minukhin B. D. 35

Pathogenetic interrelationship of matrix metalloproteinases and monoamines in comorbid course of multifocal atherosclerosis and chronic obstructive pulmonary disease

Motsak T. M., Dolynna O. V., Novyk D. S. 39

The state of the cardiovascular system in adolescents with chronic non-communicable diseases (primary arterial hypertension and obesity)

Nikonova V. V. 43

Cell therapy for diabetes complications

Orlenko V. L., Kravchuk M. H. 47

Diagnostic and prevention of diabetes complications in military servicemen of the Armed Forces of Ukraine during the full-scale war of the Russian Federation against Ukraine in 2022–2025, a modern view of the problem Popenko N. V., Shapoval A. O., Iliuk I. A.	52
Hyperhomocysteinemia, its correction and associated disorders in patients undergoing maintenance hemodialysis Postovitenko K. P., Iliuk I. A., Baranova I. V.	56
Pharmaceutical care and modern aspects of pharmacotherapy of gout Sadova-Chuba Z. T., Vasylyv M. S., Hrushkovska D. T.	60
Neuromycoses in current clinical practice: etiology, pathogenesis, and methods of diagnostics Serdiuk K. Yu.	63
Multimodal sensory space as a tool for intensifying the recovery of military personnel with complex psycho-emotional conditions and local brain injuries Sokolova A. S.	67
Analysis of the expression of cyclin D1 and p53 markers in Not Otherwise Specified colorectal carcinomas Kharkhalis I. K.	71
Study of ultrasound characteristics of pelvic floor dysfunction during exercise testing in postpartum women as a criterion for the effectiveness of physical therapy Churpii-Dydyrko I. I.	74
SECTION 2. THEORETICAL MEDICINE:	
BASIC DEVELOPMENT TRENDS	
The Impact of E-Cigarette Smoking and Vaping on Oral Health Volokhova L. B.	79
Features of disorders of sensorimotor control in people of different ages: comparative analysis of mechanisms of formation, compensation and reduction of movement programs Homoliako A. A.	83
Theoretical Medicine: Contemporary Directions of Development and the Role of Dentistry Ivakhno O. P., Pozhevilova K. V.	86
SECTION 3. PHARMACEUTICAL SCIENCE:	
THE PRESENT AND THE FUTURE	
Modern instrumental analysis of the substance brinzolamide by HPLC method Welchinska O. V., Nizhenkovska I. V., Meleshko R. A.	90

**SECTION 4. MEDICAL AND BIOLOGICAL SCIENCES:
INNOVATIONS OF THE FUTURE**

The effect of adrenaline-mediated stress on nitrosative status and the dynamics of intraocular fluid in experimental animals

Mikhheyseva I. M., Storozhuk N. V., Alobaisi Mayar 95

Morphofunctional consequences of experimental chronic adrenaline-induced and psycho-emotional stress in rats

Siroshtanenko T. I., Kuznetsov M. K., Kolomiichuk T. V. 98

Holographic modeling and landscape imaginative kinesiotherapy in coronary artery disease, arterial hypertension, anxiety-depressive disorders rehabilitation

Sisetskiy A. P. 101

**SECTION 5. PREVENTIVE MEDICINE:
THE CURRENT STATE AND PROSPECTS**

Strategies of effective medical communication in clinical practice and education: from pause to AI support

Hetman O. I., Matyash L. O., Alifer O. O. 104

Early Detection of Metabolic Dysfunction–Associated Steatotic Liver Disease as a Tool to Reduce the Burden of Non-Communicable Diseases

Feysa S. V., Slabkyi H. O., Dymnyk O. B. 109

Integration processes in the public health system of Ukraine to achieve the sustainable development goals until 2030

Khomenko I. M., Cheshko Ya. M. 113

**SECTION 6. PARTICULARITIES OF TRAINING MEDICINE
AND PHARMACY SPECIALISTS**

Soft skills for shaping the image of a modern pharmacist

Varvarych T. B., Krychkovska A. M., Khomenko O. I. 118

Features of training pharmacy students in part-time studies

Kaminskyi R. F. 122

Use of artificial intelligence, extended reality (XR) and gamification tools in the process of digitizing the educational process at the Department of Histology of the National Pirogov Memorial Medical University

Korol A. P., Hnenna V. O., Hovorushchenko O. O. 125

Strengthening mental health care in the penitentiary system of Ukraine: experience from mhGAP implementation (2021–2025)

Morvaniuk H. V. 129

Modern aspects of the biology of individual human developmental
in the formation of professional competence of future specialists
in physical therapy and rehabilitation
Panchuk O. V., Kostylov O. V., Romanenko O. V. 133

Individualization of training of students in the process of modernization
of medical education in Ukraine
Prockopets K. O. 136
